A BILL

BILL SUMMARY

To instruct all joint board directors that it is imperative that they have their respective board approval with regard to any expenditure above and beyond regular day to day expenses.

BILL HISTORY

There currently is no written rule that joint board directors need approval of their respective joint board with regard to expenditures beyond the scope of every day operations expenses. To insure proper budgeting input from students it is imperative that there be a guideline to this effect.

-
- SECTION 1: That the Finance Director be instructed to inform all joint board directors that Joint Board approval is needed for any expenditure not included in the scope of their approved day to day expenses.
- SECTION 2: Joint Board approval shall also be required for any "open" operations account. An "open" account is one such as programs which doesn't have a pre-determined expense.
- SECTION 3: All Joint Boards shall change their by-laws to conform to this.
- SECTION 4: That the student finance director be instructed not to relinquish any funds unless this is approved from the respective Joint Board.
