BILL HISTORY

In recognition of substance abuse on campus and in the Boulder Community, the Boulder Chamber of Commerce Mental Health Center of Boulder County has put together a comprehensive guide to substance abuse and its effects on the individual, family and friends. The guide is quite detailed as to the problems substance can cause and where and how help can be sought. As representatives of the student population within the community, we have the opportunity to contribute to this publication. As a result, UCSU shall be named as a sponsor of the guide and the guide shall be distributed to student groups on and off campus, i.e., dorm residents and Greek members. Substance abuse is a far reaching problem and a unified effort is needed to inform our community in an aggressive campaign against substance abuse.
