A BILL

BILL SUMMARY

To put a referendum on the Fall 1985 Ballot.

BILL HISTORY

The NTSC (Non-Traditional Student Center), an organization which meets the unique needs of older students (25 years and older) on campus, has traditionally had a volunteer position of employee director or work-study employee position of director. The work-study position has been funded through various fund raising methods. When the director is a work-study employee, the majority of money raised must go toward the payment of the director's position leaving a deficit for other group activities - excluding expenses covered by regular SOC line items. It is the uniqueness of older students' lives, which prohibits many types of fund raising for the Center's activities. This inherently complex lifestyle with many time and financial constraints makes it difficult to find volunteer directors as well as qualified people to fit the many demands of the position.

At this time in the NTSC's development, a paid hourly employee position of director is necessary to ensure the Center's continued commitment to meeting the older students' needs, as well as progressive program development.

BE IT ENACTED by the Executive council of the University of Colorado Student Union, THAT:

SECTION 1: The University of Colorado Student Union shall establish the position of Director of the Non-Traditional Student Center as an hourly student position beginning May 26, 1986. The hourly wage shall continue at the present funding rate of \$4.50 per hour; the position will be funded 30 hrs./week during the three summer months and 20 hrs./week for eight school months contingent upon passage of the referendum.

SECTION 2: The salary for this position, including workman's compensation and GAR, shall not exceed \$4,745.83 to be funded out of central reserve from October until to the following May, contingent on passage of the referendum.

SECTION 3: The following referendum question shall be placed on the Fall 1985 Election ballot:

"Should the University of Colorado Student Union fund the Non-Traditional Student Center by setting aside 15¢ per student per semester from mandatory student fees?"

SECTION 4: This Bill becomes effective upon passage by Executive Council.

5/2/85 - TABLED ONE WEEK - EXECUTIVE COUNCIL

5/9/85 - POSTPONED
