A BILL

BILL HISTORY

Cystic fibrosis is a fatal disease affecting millions of people. The life expectancy of someone with cystic fibrosis is approximately 20 years. As recently as five years ago, the life expectancy was only 15 years old. Progress is being made in finding a cure and discovering the gene marker for the disease. The Alpha Chi Omega Sorority and the Evans Scholars are holding their first annual "Campus Headliner" to benefit the Cystic Fibrosis Foundation. The Campus Headliner is an event in which persons or organizations purchase "votes" costing 10 cents each. They submit any word or phrase of their choice, and the word or phrase with the most votes wins. All entries will be printed in the Colorado Daily on November 17, 1986. The winning entries will be printed larger than the others.
