A BILL

BILL HISTORY

The NACS conference has been in existence for 10 years in an effort to promote research and other activities that contribute to the struggles being carried on in the ethnic minority community. The Association's theme this year is "Community Empowerment and Chicano Scholarship: Towards Social Justice in the 21st Century". The conference encourages research which promotes awareness of minority issues, and strategies which will enable minorities to achieve equality in becoming upwardly mobile. The annual conference has encouraged research which has significant impact on the total minority community.

This conference will address such issues as aids, empowerment in the minority community, opportunities for minorities in the career and the educational fields and much more.

This year, Oyate Indian Club is requesting an opportunity to attend the conference. As you can see, this year's conference addresses social concerns for the future, which certainly is at the focus of Oyates concerns. We feel we could benefit by attending the conference and continue to promote the collective efforts of working to address the issues of all ethnic minority peoples.

BILL SUMMARY
