BILL HISTORY

The American College Health Association (ACHA) is a professional association through which institutions of post-secondary education and individuals, both health professionals and students, relate to the health needs of academic communities. This year's ACHA 67th Annual Conference will be held in Washington D.C. from May 23-27. Members of Wardenburg Staff and Administrators will be attending this event. The Joint Health Board would also like to be represented as a student health service, Wardenburg faces problems unique to serving student needs. It is Health Boards primary purpose to insure the availability of quality, low cost medical care for students of this University. Because the field of medicine is one of such rapid progress, we feel that it is vital to gain outside perspectives as much as possible. This conference will enable us to learn more about the changing trends and problems of health care and bring this knowledge back for the benefit of the University.
