A BILL

BILL HISTORY

Peter Beckmann was a prominent research scientist in Czechoslovakia until 1963 when he defected to the United States. He is now Professor Emeritus of Electrical Engineering at CU-Boulder. He was offered the chairmanship of the School of Engineering, which he declined. He has written many scientific books and articles and currently publishes a monthly newsletter, Access to Energy, which presents factual and critical discussions of current scientific issues. He is widely known both in and out of scientific circles and has recently appeared on the Mort Downey Show.

Radicals for Capitalism is sponsoring Dr. Beckmann to speak Tuesday, December 6, 1988 at 7:00pm on the Greenhouse Effect and the destruction of the rainforests. Both of these issues have gained wide attention in the media yet little scientific information is generally available. Dr. Beckmann will provide a discussion of the scientific facts involved and answer questions after his talk.

The money requested is for advertising only. Dr. Beckmann is not asking for an honorarium.
