A BILL

---

BILL HISTORY

One of the problems that the Legislative Council faces is the difficulty in continuity between sessions. One way to help the continuity of the council would be to make past legislation more accessible to current members.

5 With this in mind four students in Information Systems 4660, Joe DePaemelaere, Chris Brown, Terri Fellers and Samantha Phouthavong have worked on a computer system which would place all past sessions onto a computer. Currently there is a prototype of the  
10 system in the council office.

With the approval of 37 LCR #101, council "affirms....support for the IS team conclusions and indicates Council intention to include support of the project in the 1993-1994 budget allocations."

One of the items that would be necessary to purchase is a document scanner and software. Since we will want to purchase the document scanner sometime coupled with the fact that any money that is not  
20 spent by Friday 6/12/92 will be placed into UCSU proper's account, purchasing this scanner now would be fiscally good.

---

BILL SUMMARY

This bill allocates \$700.00 + GAR from Legislative Council account #1391120 to purchase a document scanner and supporting software for  
25 the Legislative Council computer system.

---
