A BILL

---

BILL HISTORY

Throughout the course of world history, women have demonstrated incredible strength, motivation, and courage to overcome the many societal barriers that have been placed in the way of opportunity. Despite these barriers and lack of recognition, we all know that women have always played a key role in all facets of our history. Unfortunately, even in today's sophisticated, modern, and enlightened society, women still face barriers to opportunity. As this nation prides itself on equality, justice, opportunity, freedom, and individual initiative, it is an embarrassing fact that women still face these obstacles.

The Women's Incentive Fund (WIF) has been created to remove these obstacles women encounter and is available based on need. As the sources for this fund develop, we will be able to court the huge dividends women will provide society when they are finally able to reach their full potential.

This year, WIF applicants, coordinators and students will attend a WIF Awareness Reception on May 17, 1993 to meet the applicants and find out more about the WIF. This Awareness Reception is important because it is the only opportunity non-traditional women students have to be recognized for their achievements. Furthermore, the educational needs of women on this campus will be discussed as well.

---
