A BILL

BILL HISTORY

Delta Sigma Pi is the largest student organization in the College of Business and its members are instrumental to the success of the college. Delta Sigma Pi is involved in many activities whose effects can be observed throughout the College of Business. From Community Service to Professional Speakers that enhance the education of the entire student body, to taking a leading position in the success of the College of Business; Delta Sigma Pi is an organization that provides direction to the Business School. It is for this reason that we believe that your support of the Colorado Conference is of the utmost importance.

The Alpha Rho Chapter is hosting a state wide conference on March 11-13, 1994. this conference is an opportunity for other schools around the state to see our campus and how our chapter runs and vice versa. For a full day we will provide seminars, workshops, and keynote speakers on leadership, business and today's working environment. The participating delegates will benefit from these activities which are designed to be a venue for carrying back information to the various schools and universities.

We hope that this will be an opportunity for everyone to see why the University of Colorado has one of the leading business schools in the nation. Last year UCSU sponsored this event and due to its great success and overwhelming response, we have extended the conference this year to include 35 chapters in the western United States. The number of participants we hosted last year increased almost 800%.

By funding the Colorado Conference you will enable the Alpha Phi Chapter to grow and thus help contribute even further to the success and advancement of the College of Business. As you can see from the attached letters of recommendation, we do have the support of our school and we hope that you will also support us.
