40 Council of Colleges and Schools Bill #15

University of Colorado
Student Union

Sponsored by: Engineering School Representative Kristy Hotaling

Authored by: UCEC Representative John Doyle

A BILL

BILL HISTORY

The University of Colorado Engineering Council (UCEC) is the student governing body for the Engineering School. UCEC is composed of representatives from 23 student organizations and societies as well as student representatives-at-large. The Engineering Council is the binding body of engineering students that sponsors many events such as tutoring/advising programs, high school outreach programs, Centennial Celebration and E-Days.

Every UCEC recognized student group shares a small office with two other groups in the Engineering Center. Each office (10 total) has an IBM PC for the student groups in each office to use. The computers are in various states of working order and none is up and running due to Internet requirements that have not been met. The Engineering Council has recognized that a computer network between student groups and connected to the CNS network is an essential communication tool that has not yet been established. The outreach to engineering students as well as the effectiveness of conducting group activities would be greatly improved with this network.

The Engineering School Dean has committed \$3000 to the project and UCEC just needs \$1600 to get the network up and running. The equipment needed is minimal and will effect a large number of students in the Engineering School

BILL SUMMARY

This bill allocates \$1600 plus GAR from the Council of Colleges and Schools Local Schools Rollover Account to help fund the expenses needed to upgrade the existing computers and establish a network that services the University of Colorado Engineering School student organizations and societies.

BE IT ENACTED by the Council of Colleges and Schools of the University of Colorado Student Union, THAT:

Section 1: This bill allocates \$1600 plus GAR from the Council of Colleges and Schools Local Schools Rollover Account to help fund the expenses needed to upgrade the existing computers and establish a network that services the University of Colorado Engineering School student organizations and societies.

Section 2: Written reports and editorials shall be submitted pursuant to 34CCSB#15.

Section 3: This bill takes effect upon passage.
