BILL HISTORY

2 The Society of Automotive Engineers Student Chapter at CU Boulder  
4 is an organization that promotes and supports Engineering and  
6 Science education. We are in our second year as a society on  
8 campus but have already had speakers from industry give oral  
presentations at our meetings. We have also had a chance to tour  
Mark Williams' company which manufactures drag racing parts. SAE  
gives automobile enthusiasts the chance to continue their love for  
cars by attending our meetings and tours.

10 Some members of the CU Boulder SAE Chapter will be attending the  
12 1994 Formula SAE Competition from May 19-21, 1994 in Auburn Hill,  
Michigan. Over 70 colleges and universities will be there to  
4 compete with their race cars. This competition will give our SAE  
16 students a chance to show off their engineering accomplishments to  
Ford, General Motors, and Chrysler professional engineers. This  
18 competition will also allow our students the chance to meet other  
students, parents, and industry people from around the nation.

20 Furthermore, our team hopes to represent CU Boulder in a  
22 professional and courteous manner. Our goal is to win the rookie  
car of the year award. This would not only be a great way to  
24 reward our students efforts but also to bring nationwide  
recognition to the University of Colorado at Boulder.

26 We are planning to send at least 5 SAE members to this competition,  
28 plus we have to send one faculty advisor, Professor Larry Carlson  
from the Mechanical Engineering Department. We are planning for  
30 Professor Carlson to take an airplane to Auburn Hills, MI. The  
students are planning to drive one van and one truck. The truck  
will be used to tow a race car trailer and carry the necessary  
32 tools, lights and personal belongings.

34 Fund raising for this competition has been a top priority for our  
36 society the last year. We have received help from numerous local  
and national race car parts dealers. We have written proposals to  
38 corporations and requested funds from the Dean of Engineering. We  
request assistance from UCSU in order to help send our 5 SAE  
members, send one faculty advisor, and pay our registration fee.
