A BILL

BILL HISTORY

On April 24, 1997 Legislative Council passed a bill to move NightRide/NightWalk from UCSU Proper to Off-Campus Student Services for a one year trial period (see 47LCB#1). The reason this move was made was to provide some stability and consistency to the program. Since then OCSS has run the NR/NW program and has come to the conclusion that the project would be better housed under the UMC. The UMC would provide stability to the program and allow it to be run out of the UMC Reception desk instead of Norlin library.

BILL SUMMARY

This bill authorizes the transfer of the NR/NW program to the UMC. The program will lie under the discretion of the UMC Joint Board and all programmatic designs will be handed over to the Director of the UMC or the Director's designee for two years.

THEREFORE, BE IT ENACTED by the University of Colorado Student Union that:

- SECTION 1:** The NightRide/NightWalk program and its operating account will be transferred from OCSS to the UMC.
- SECTION 2:** The NightRide/NightWalk program will be overseen by the UMC Joint Board and managed by the UMC director or designee for a two years trial period.
- SECTION 3:** This bill takes effect upon passage.
